NEW YORK, NOV 3 /- In massive image-building exercise, India's TCS Consultancy Services flooded the metropolis with 10 of thousands of its logo on Sunday as the sponsor of New York City Marathon, the world's premier long-distance running event.

Starting this year TCS is the title sponsor of the marathon, which is now officially called TCS New York City Marathon.

Over 40,000 runners ran the 26.2-mile (36.16-km) course through the city's five boroughs while hundreds of thousands lined the route to cheer them on and millions watched the event on television and online postings. TCS got its logo onto the bibs of the runners, attempting to create sub-

liminally through all this a positive image of India, said TCS, "A major marketing effort," the goal is "to make the New York City Marathon the most technologically advanced and socially engaged marathon in the world." TCS CEO N Chandrasekaran said it was the first time a non-American was chosen to run the New York Marathon in 2009 and the Boston Marathon in 2012. The company is also title sponsor of the Amsterdam Marathon and has also sponsored marathons in Boston, Chicago, Amsterdam, Singapore and Mumbai.

As with most marathon events, African runners dominated the show. Kenya's Wilson Kipsang won the men's marathon with a time of 2 hours, 10 minutes, 55 seconds.

Qatar Airways announces 25% cut in fares in time-bound scheme

MUMBAI, NOV 3 /- Gulf airline Qatar Airways today rolled out a limited period promotional fares scheme, offering up to 25 per cent discount to its customers, including in India, destination in Europe, Africa, Asia Pacific, the Middle East and the Americas. The week-long offer comes into effect from today and will continue till November 10 with a travel period window of six months. Qatar Airways said in a release. The discount of up to 25 per cent is being offered for return travel on Qatar Airways in all classes for travel originating from India, it said. "This exciting offer provides our passengers travelling on leisure or business trips, an opportunity to visit more than 140 destinations worldwide on our rapidly expanding global network. We are looking seeing them take advantage of these limited special fares over the next few days," Qatar Airways vice-president for the India sub-continent Ihab Sorial said.

Qatar Airways offers flights from 12 cities in India via its hub in Doha to global destinations such as Barcelona, Chicago, Dallas, Houston, London, Miami, New York, Paris, Philadelphia, Rome, Washington DC besides other destinations. The Doha-based airline operates across 145 business and leisure destinations spanning over the Middle East, Asia Pacific, Africa, North America and South America with a fleet of 139 aircraft.

Bharti Softbank buy 36.5% stake in ScoopWhoop

NEW DELHI, NOV 3 /- Bharti Softbank, a joint venture company of Bharti Enterprises and Japan-based Softbank Corporation, on Monday said it has acquired 36.5 per cent equity stake in entertainment media startup ScoopWhoop.

"The partnership will combine the strengths of both i.e., content creation for Indian youth by ScoopWhoop and mobile-optimised technology platform and distribution by BSB Media Private," the company said.

ScoopWhoop is an India focused entertainment media startup that creates and curates content that gets shared through social networks. Its website and mobile application clock approximately 20 million monthly page views and have over 8 million unique visitors per month. Over half of all the page views are accessed via smartphones, underlining the strong mobile play

"About a half of India's population is under 25 years old and the use of social networks with smartphones is growing rapidly among this segment. We believe the partnership offers immense synergies and opportunities to create great content experience for India's mobile internet population," BSB Portal Limited CEO Madhu Norisaid.

India is the world's second largest mobile market with over 900 million subscribers. A vast youth population and a fast growing economy are expected to drive growth on mobiles with the proliferation of 3G and 4G services and increasing smartphone penetration.
